The programme provides information on transmission and prevention of STIs/HIV, and helps guide students to make good life choices to avoid risky sexual behaviors.
2. The following topics are taught:
 - a) Infectious diseases (STIs and HIV);
 - b) Modes of transmission for STIs and HIV;
 - c) Modes of protection against infection, specifically abstinence and the correct and consistent use of condoms;
 - d) Consequences and impact STIs/HIV;
 - e) Ways of managing the impact of STIs
3. The programme is delivered through a 1-hour talk. A video and presentation are used to convey key learning points. The programme depicts the health, social and financial implications of STIs/HIV on an individual and the family if he/she gets infected with STIs/HIV and emphasises the importance of responsible decision-making and knowing where to seek help. Presenters are engaged by HPB and follow a presentation guide approved by MOE.
