 MOE Programmes :
 

- MOE Art Elective Programme (AEP)
- MOE Chinese Language Elective Programme (CLEP)
- MOE Cluster Centre of Excellence for Chinese Language
- MOE Cluster Centre of Excellence for Art

 Signature Programmes :
 

- **"Managing Self Leading Others" (MSLO) Programme**  
 The College has designed and put in place a Student Development Framework which includes the college-wide "Managing Self Leading Others" programme to enhance its students' capabilities and capacities in the areas of character and leadership. Students take ownership of their learning and growth through tracking their own development in the lifeskills, socio-emotional domains and the acquisition of the 21<sup>st</sup> century competencies through customised measuring tools.
- **CharacterPlus Programme**  
 Every student is given opportunities to participate in the self-developed customised CharacterPlus

Programme which consists of core and elective modules, to enhance their competencies and lifeskills required for successful living in the 21<sup>st</sup> century.

- Learning Needs Analysis  
Every student will participate in a comprehensive Learning Needs Analysis and receive an individualized report to understand his/her personal dominant learning style, to facilitate self-discovery and help him/her become effective learners. Cohort data will be generated for subject tutors to better strategically design and customise the teaching & learning programmes to help students succeed in their learning and realize their aspirations.
- Galileo Programme  
The programme aims to groom potential scholars and provide them with opportunities for academic enrichment, leadership development, career internship and community involvement. Students are nurtured to assume leadership positions through leadership training, active involvement in major college committees, functions, community projects as well as local and overseas service-learning projects.
- Student Leadership Development Programme  
The modular approach to character and leadership development aims at developing student leaders with different capacities. There is a system to evaluate leadership competencies of student leaders and based on the evaluation outcomes, the college reviews and conducts programmes to further enhance student leaders' leadership capacity and capability.
- Topical / Thematic Guide to Teaching & Learning (TGTL)  
Students will benefit from TGTL, a college-wide initiative to engage students in deeper levels of critical analysis and thinking. This use of TGTL across all subjects is key to the college's commitment to quality teaching & learning.
- Career & Higher Education Guidance Programme  
Students will be equipped with the skills and knowledge to help shape their career aspirations as well as to prepare them for university education and the working world. Opportunities to interact and network with professional experts and practitioners will be provided during the Annual Career Seminar, regular lunch-time local and overseas university talks, and Student Work Attachment & Internship Programmes.
- Innovative Timetable Structure  
The college implements a 2-week block timetable to facilitate the flexibility in allowing students to choose their preferred subject combinations. To date, the college has had more than 60 sets of subject combinations. The college has been commended for its many unique practices including that of starting its school day at 8.30 am every day since the year 2011.

Other School Programmes

- Counselling and Resilience Programme
- Overseas Service-Learning Expedition
- Overseas Enrichment and Immersion Programme
- PE Enrichment Programme
